quantity	INT

INSTRUCTIONS

1. Create the **Registration** Page
2. Create the **Login** Page
3. Create the **Dashboard** Page
 - Display **Add Product Button**
 - Show the product details
 - **Edit and Delete Buttons**
4. Create **Add Product** Page
5. Create the **Edit Product** Page
6. Create the **Delete Product** functionality

CHALLENGE:

- Create a **Buy Product Button**
- Create **Buy Product** Page
 - It will display the Product's detail
 - Allows the user to input the quantity that they want to buy
- Create the **Payment** Page
 - Display Total Price
 - Allow the user to input their payment
 - If the user's payment is smaller than the total price, then deny the payment.
 - Minus the buy quantity with the quantity in the database.
